## MISSIONS

**Mission 3026-05: MacGuffin Escape**

**Under Greater Stubensville High School, Barlow's End, Federated Suns**

**September 30, 3026**

**Pilot Skill: 4-5**

Okay boys, listen up! As of right now, we've been dragooned into a mission of "Utmost Importance" according to the Feds. It turns out that they've been hiding a secret research facility, called "The Achernar Proving Grounds" here under what used to be the Greater Stubensville High School. Unfortunately, it doesn't appear to be all that 'secret' any more. We were able to rebuff an attack on the surface of this facility earlier, but it looks like the Dracs aren't done with this place yet.

As you may or may not be aware, Barlow's end is naturally completely uninhabitable, and the first colonists who came here lived underground in a set of mining tunnels, at least until the Star League was able to terraform this place. Unfortunately, the Combine is just as aware of this fact as we are, and as we speak are coming here to capture or at least destroy whatever it is the Feds are building here.

Your job is simple. The Fed scientists are frantically struggling to finish dismantling the machine. Cover them while they do so, and then make sure they can escape this facility into the tunnels under the city. They've got an armored truck and a small number of infantry to help cover their retreat, but it's mostly going to be up to you guys.

**Map:** This mission takes place underground, under the city of Rough Patch on Barlow's End (specifically, the suburb of "Greater Stubensville". The Achernar Proving Grounds consists of a large cavern with a set of caverns leading away in multiple directions. If available, use the map from the Ishiyama Solaris Map. In this case, it's half of Ishiyama 2 and all of Ishiyama 1.

**Recommended Maps:**

- 1: Solaris\_Ishiyama2\_Right
- 2: Solaris\_Ishiyama1\_Left
- 3: Solaris\_Ishiyama1\_Right

**Setup:** The Large cavern at the top left is "The Proving Grounds". Place the FedSuns truck in Hex 4804 on Ishiyama 2. (To the left of the large cavern). The players may place the two Ballistic Foot infantry platoons and the one Heavy Support Infantry platoon anywhere in that large cavern. The Dragoons enter from hex 0917 on Ishiyama 1, and win if they capture the truck and escort it off the map through that same hex. The Heroes need to escort the truck safely off the map anywhere on row 30 on Ishiyama 1 (the right side of the map).

## Special Rules

**Just one more bolt!:** The Federated Suns' Scientists are attempting to dismantle the Macguffin, but it takes time. At the start of each turn, roll 2d6, and keep a running total. Once the running total reaches 30, the MacGuffin has been dismantled and loaded onto the Truck unit (see below). Before that has happened the truck cannot move or be targeted by either side.

**Guard Duty:** The three infantry bases cannot leave the initial cavern until the Macguffin has been dismantled and put on the truck. Once the truck can begin moving, the infantry bases can move wherever the players want.

**Well, if we can't have it, nobody can!:** If either side gets the Macguffin to within six hexes of their exit, then the other side may fire upon it for the rest of the scenario. Destroying the MacGuffin limits the Heroes' reward for the scenario. (See below)

**I give up!** If the Combine forces get a mech adjacent to the truck, and there are no friendly units within three hexes, then the truck is captured, and will be controlled by the GM. The heroes can regain control of the truck by having a unit adjacent to it while there are no Dragoon/Combine units within three hexes.

### Additional Rewards

Hetzer Wheeled Assault Vehicle (AC-10) (Mission Support)

*Sure, you can borrow one of those tanks. Just make sure you gas it up before you return it!*

Scotty was able to salvage one of the Hetzers. He's even willing to loan it to you for later missions. At the beginning of a mission, if you wish to use one of these tanks, check off one of the boxes above. The Hetzer is controlled by you, has a 4 gunnery 5 pilot crew, moves when your mech would move, and begins the game adjacent to your 'mech. (In scenarios in which your mech enters, the tank enters from the same hex that you do). At the end of the mission, you must pay maintenance costs for the tank of 50,000 C-Bills.

If the tank is destroyed during the mission, or if you've checked off all three checkboxes, cross off this Mission Support.

\*A result of 2 or 12 (or an 8 if the attack strikes the side) may inflict a critical hit on the vehicle. For each result of 2 or 12 (or 8 for side attacks), apply damage normally to the armor in that section. The attacking player then automatically rolls once on the Ground Combat Vehicle Critical Hits Table below (see *Combat*, p. 192 in *Total Warfare* for more information). A result of 12 on the Ground Combat Vehicles Hit Location Table may inflict critical hit against the turret; if the vehicle has no turret, a 12 indicates the chance of a critical hit on the side corresponding to the attack direction.  
 †The vehicle may suffer motive system damage even if its armor remains intact. Apply damage normally to the armor in that section, but the attacking player also rolls once on the Motive System Damage Table at right (see *Combat*, p. 192 in *Total Warfare* for more information). Apply damage at the end of the phase in which the damage takes effect.  
 ‡Side hits strike the side as indicated by the attack direction. For example, if an attack hits the right side, all Side results strike the right side armor. If the vehicle has no turret, a turret hit strikes the armor on the side attacked.

### MOTIVE SYSTEM DAMAGE TABLE

| 2D6 Roll | EFFECT*  |
|----------|--|
| 2-5      | No effect.   |
| 6-7      | Minor damage; +1 modifier to all Driving Skill Rolls   |
| 8-9      | Moderate damage; -1 Cruising MP, +2 modifier to all Driving Skill Rolls                          |
| 10-11    | Heavy damage; only half Cruising MP (round fractions up), +3 modifier to all Driving Skill Rolls |
| 12+      | Major damage; no movement for the rest of the game. Vehicle is immobile.                         |

| Attack Direction Modifier: | Vehicle Type Modifiers: |
|----------------------------|-------------------------|
| Hit from rear              | Tracked, Naval          |
| Hit from the sides         | Wheeled                 |
|                            | Hovercraft, Hydrofoil   |
|                            | WIGE                    |
|                            | +0                      |
|                            | +2                      |
|                            | +3                      |
|                            | +4                      |

\*All movement and Driving Skill Roll penalties are cumulative. However, each Driving Skill Roll modifier can only be applied once. For example, if a roll of 6-7 is made for a vehicle, inflicting a +1 modifier, that is the only time that particular +1 can be applied; a subsequent roll of 6-7 has no additional effect. This means the maximum Driving Skill Roll modifier that can be inflicted from the Motive System Damage Table is +6. If a unit's Cruising MP is reduced to 0, it cannot move for the rest of the game, but is not considered an immobile target. In addition, all motive system damage takes effect at the end of the phase in which the damage occurred. For example, if two units are attacking the same Combat Vehicle during the Weapon Attack Phase and the first unit inflicts motive system damage and rolls a 12, the -4 immobile target modifier would not apply for the second unit. However, the -4 modifier would take effect during the Physical Attack Phase. If a hover vehicle is rendered immobile while over a Depth 1 or deeper water hex, it sinks and is destroyed.

\*A result of 2 or 12 (or an 8 if the attack strikes the side) may inflict a critical hit on the vehicle. For each result of 2 or 12 (or 8 for side attacks), apply damage normally to the armor in that section. The attacking player then automatically rolls once on the Ground Combat Vehicle Critical Hits Table below (see *Combat*, p. 192 in *Total Warfare* for more information). A result of 12 on the Ground Combat Vehicles Hit Location Table may inflict critical hit against the turret; if the vehicle has no turret, a 12 indicates the chance of a critical hit on the side corresponding to the attack direction.  
 †The vehicle may suffer motive system damage even if its armor remains intact. Apply damage normally to the armor in that section, but the attacking player also rolls once on the Motive System Damage Table at right (see *Combat*, p. 192 in *Total Warfare* for more information). Apply damage at the end of the phase in which the damage takes effect.  
 ‡Side hits strike the side as indicated by the attack direction. For example, if an attack hits the right side, all Side results strike the right side armor. If the vehicle has no turret, a turret hit strikes the armor on the side attacked.

### MOTIVE SYSTEM DAMAGE TABLE

| 2D6 Roll | EFFECT*  |
|----------|--|
| 2-5      | No effect.   |
| 6-7      | Minor damage; +1 modifier to all Driving Skill Rolls   |
| 8-9      | Moderate damage; -1 Cruising MP, +2 modifier to all Driving Skill Rolls                          |
| 10-11    | Heavy damage; only half Cruising MP (round fractions up), +3 modifier to all Driving Skill Rolls |
| 12+      | Major damage; no movement for the rest of the game. Vehicle is immobile.                         |

| Hit from rear              | Tracked, Naval          |
| Hit from the sides         | Wheeled                 |
|                            | Hovercraft, Hydrofoil   |

\*All movement and Driving Skill Roll penalties are cumulative. However, each Driving Skill Roll modifier can only be applied once. For example, if a roll of 6-7 is made for a vehicle, inflicting a +1 modifier, that is the only time that particular +1 can be applied; a subsequent roll of 6-7 has no additional effect. This means the maximum Driving Skill Roll modifier that can be inflicted from the Motive System Damage Table is +6. If a unit's Cruising MP is reduced to 0, it cannot move for the rest of the game, but is not considered an immobile target. In addition, all motive system damage takes effect at the end of the phase in which the damage occurred. For example, if two units are attacking the same Combat Vehicle during the Weapon Attack Phase and the first unit inflicts motive system damage and rolls a 12, the -4 immobile target modifier would not apply for the second unit. However, the -4 modifier would take effect during the Physical Attack Phase. If a hover vehicle is rendered immobile while over a Depth 1 or deeper water hex, it sinks and is destroyed.

### Additional Rewards

Hetzer Wheeled Assault Vehicle (AC-10) (Mission Support)

*Sure, you can borrow one of those tanks. Just make sure you gas it up before you return it!*

Scotty was able to salvage one of the Hetzers. He's even willing to loan it to you for later missions. At the beginning of a mission, if you wish to use one of these tanks, check off one of the boxes above. The Hetzer is controlled by you, has a 4 gunnery 5 pilot crew, moves when your mech would move, and begins the game adjacent to your 'mech. (In scenarios in which your mech enters, the tank enters from the same hex that you do). At the end of the mission, you must pay maintenance costs for the tank of 50,000 C-Bills.

If the tank is destroyed during the mission, or if you've checked off all three checkboxes, cross off this Mission Support.

## **MISSIONS**

**Mission: 3026-05 Debrief**

**MacGuffin Escape**

**Under Greater Stubensville High School, Barlow's End, Federated Suns**

**September 30, 3026**

Hunh. The snakes really want whatever that MacGuffin is. This is the second major attack they've made on it, and by all accounts they're going to try at least one more time.

Of course, nobody will tell you what the MacGuffin is, but it's a bit too big to put in a Battlemech, so it's probably not something cool like a new 'mech weapon or heat sink or anything like that. Either way, you probably wouldn't get to keep it anyway.

The Feds have one more job for us. We're to escort the truck and the MacGuffin to the Dropport in the Capital city of Rough Patch. Yup, the capital city of Barlow's End is called "Rough Patch".

What's the worst thing that could happen?

Hetzer Wheeled Assault Vehicle (AC-10) (Mission Support)

*Sure, you can borrow one of those tanks. Just make sure you gas it up before you return it!*

Scotty was able to salvage one of the Hetzers. He's even willing to loan it to you for later missions. At the beginning of a mission, if you wish to use one of these tanks, check off one of the boxes above. The Hetzer is controlled by you, has a 4 gunnery 5 pilot crew, moves when your mech would move, and begins the game adjacent to your 'mech. (In scenarios in which your mech enters, the tank enters from the same hex that you do). At the end of the mission, you must pay maintenance costs for the tank of 50,000 C-Bills.

If the tank is destroyed during the mission, or if you've checked off all three checkboxes, cross off this Mission Support.

**Mission: 3026-05 Debrief**

**MacGuffin Escape**

**Under Greater Stubensville High School, Barlow's End, Federated Suns**

**September 30, 3026**

Hunh. The snakes really want whatever that MacGuffin is. This is the second major attack they've made on it, and by all accounts they're going to try at least one more time.

Of course, nobody will tell you what the MacGuffin is, but it's a bit too big to put in a Battlemech, so it's probably not something cool like a new 'mech weapon or heat sink or anything like that. Either way, you probably wouldn't get to keep it anyway.

The Feds have one more job for us. We're to escort the truck and the MacGuffin to the Dropport in the Capital city of Rough Patch. Yup, the capital city of Barlow's End is called "Rough Patch".

What's the worst thing that could happen?
