MISSIONS

Mission 3027-03: Taking out the Trash
Aberystwyth, Timbuktu Theater, Lyran Commonwealth
April 2, 3027
Pilot Skill: 3-5

Okay Boys, listen up! The techs are sifting through the intel contained in the navigational logs of the pirate dropship you worked over. It sounds like they're close to figuring out where to find their base so we can be done with this mess, and move on to more exciting things. In the meantime, the local authorities have tracked down the last of the pirates on the ground, and I'd hate for you to get bored twiddling your thumbs while you wait for that nav data. Before we pack up to who knows where, head out to grid point kappa, and see if you can capture or kill the pirate leader, and finish off the pirate threat on Aberystwyth before we go. Just remember: Those pirates are cut off, cornered, and have had at least a few hours to dig in, so be prepared for anything!

Oh yeah. It turns out the local government is offering a bounty for each additional pirate you can get rid of. Big money's on the boss, but what they're payin' for other pirate scalps should pay for at least a couple of rounds of drinks. Have fun out there!

Map: This mission takes place in a mountain valley. For most player groups, any two hilly/mountainous maps arranged long edge to long edge will do. If the total player BV is 4000 or less, make sure there are viable paths for conventional vehicles to cross the battlefield.

Recommended Maps:

- 1: Desert 3
- 2: Desert Sand Drift 2

Setup: Designate one map edge as the players' home edge. Before play begins, place the pirates in any location on the map opposite the player's home edge.

If the total BV of the player team is above 5000 the pirate Commando battlemech starts out hidden, and should be deployed using the hidden unit rules (See total Warfare, pg. 258). At 8000 BV and above the hidden unit changes to a Vulcan.

The pirates have dug in, after a fashion, and deployed a series of improvised minefields onto the battlefield. Before play begins, secretly designate hexes on the pirate half of the map as conventional minefields (See Tactical Operations, pg. 208). The number and strength of these minefields varies by player tier.

When play begins, the players enter through their home map edge. Player 'mechs may

withdraw by exiting through that map edge. If the players have any militia reinforcements (see below), they enter with the players.

Reinforcements: Depending on the total BV of the player team, they may receive limited conventional support from the local militia. If possible, have the players control these forces in the game.

Special Rules

John “Smiley” O’Rourke: The Thunderbolt in this scenario is piloted by the pirate leader, Smiley O’Rourke. Smiley has the same base statistics at all tiers of the scenario. In addition to his ‘mech and piloting skills, he has the following pilot abilities, which he can use during the game (once each): Edge, Bull Rush

GM Note: “Edge” should only be used to avoid ending the game with a fluke player victory during the first two hours of gameplay.

*A result of 2 or 12 (or an 8 if the attack strikes the side) may inflict a critical hit on the vehicle. For each result of 2 or 12 (or 8 for side attacks), apply damage normally to the armor in that section. The attacking player then automatically rolls once on the Ground Combat Vehicle Critical Hits Table below (see *Combat*, p. 192 in *Total Warfare* for more information). A result of 12 on the Ground Combat Vehicles Hit Location Table may inflict critical hit against the turret; if the vehicle has no turret, a 12 indicates the chance of a critical hit on the side corresponding to the attack direction.
†The vehicle may suffer motive system damage even if its armor remains intact. Apply damage normally to the armor in that section, but the attacking player also rolls once on the Motive System Damage Table at night (see *Combat*, p. 192 in *Total Warfare* for more information). Apply damage at the end of the phase in which the damage takes effect.
§Side hits strike the side as indicated by the attack direction. For example, if an attack hits the right side, all Side results strike the right side armor. If the vehicle has no turret, a turret hit strikes the armor on the side attacked.

MOTIVE SYSTEM DAMAGE TABLE

2D6 Roll	EFFECT*
2-5	No effect
6-7	Minor damage; +1 modifier to all Driving Skill Rolls
8-9	Moderate damage; -1 Cruising MP, +2 modifier to all Driving Skill Rolls
10-11	Heavy damage; only half Cruising MP (round fractions up), +3 modifier to all Driving Skill Rolls
12+	Major damage; no movement for the rest of the game. Vehicle is immobile.

Attack Direction Modifier:	Vehicle Type Modifiers:
Hit from rear	Tracked, Naval
Hit from the sides	Wheeled
	Hovercraft, Hydrofoil
	WICE
	+0
	+2
	+3
	+4

*All movement and Driving Skill Roll penalties are cumulative. However, each Driving Skill Roll modifier can only be applied once. For example, if a roll of 6-7 is made for a vehicle, inflicting a +1 modifier, that is the only time that particular +1 can be applied; a subsequent roll of 6-7 has no additional effect. This means the maximum Driving Skill Roll modifier that can be inflicted from the Motive System Damage Table is +6. If a unit's Cruising MP is reduced to 0, it cannot move for the rest of the game, but is not considered an immobile target. In addition, all motive system damage takes effect at the end of the phase in which the damage occurred. For example, if two units are attacking the same Combat Vehicle during the Weapon Attack Phase and the first unit inflicts motive system damage and rolls a 12, the -4 immobile target modifier would not apply for the second unit. However, the -4 modifier would take effect during the Physical Attack Phase. If a hover vehicle is rendered immobile while over a Depth 1 or deeper water hex, it sinks and is destroyed.

MISSIONS

Mission: 3027-03 Debrief

Taking out the Trash

Aberyswyth, Timbuktu Theater, Lyran Commonwealth

April 2, 3027

After the mission, you find yourself quickly shuffled into the briefing room. Whatever it is, Sarge is apparently so much in a hurry that he doesn't even let you take a shower to get the stink of 'mech cockpit off before packing you all into the relatively cramped confines of the dropship's conference room. The debrief is uncharacteristically short and to-the-point.

"I hope you all enjoyed your hike through the mountains, cause we're about to lift off and let the locals take it from here. The tech boys tell me they've cracked the nav data from the pirate dropship, and our employers are not happy about what they found.

Somebody has been supplying pirates near this part of the periphery and the smart money is on the Free Worlds League. This is just the sort of low-level destabilization that they might pull in an effort to bleed the Commonwealth of resources. It's pretty small time stuff, but the Elsie's want us to put an end to it, so we're going to go hit the pirate base to let them know we'd like them to stop. If we can find any hard evidence that the Leaguers are behind it, so much the better.

Everybody pack your stuff, and make sure you hit the head before we go!"

Mission: 3027-03 Debrief

Taking out the Trash

Aberyswyth, Timbuktu Theater, Lyran Commonwealth

April 2, 3027

After the mission, you find yourself quickly shuffled into the briefing room. Whatever it is, Sarge is apparently so much in a hurry that he doesn't even let you take a shower to get the stink of 'mech cockpit off before packing you all into the relatively cramped confines of the dropship's conference room. The debrief is uncharacteristically short and to-the-point.

"I hope you all enjoyed your hike through the mountains, cause we're about to lift off and let the locals take it from here. The tech boys tell me they've cracked the nav data from the pirate dropship, and our employers are not happy about what they found.

Somebody has been supplying pirates near this part of the periphery and the smart money is on the Free Worlds League. This is just the sort of low-level destabilization that they might pull in an effort to bleed the Commonwealth of resources. It's pretty small time stuff, but the Elsie's want us to put an end to it, so we're going to go hit the pirate base to let them know we'd like them to stop. If we can find any hard evidence that the Leaguers are behind it, so much the better.

Everybody pack your stuff, and make sure you hit the head before we go!"
