## MISSIONS

**Mission 3028-02: A Bridge to Where?**  
**Hashi Bridge, Were River, Shaula**  
**September 10, 3028**  
**Pilot Skill: 3-4**

Okay boys, listen up! Operations are proceeding nicely here on Shaula. The Lyrans are advancing on all fronts and the DCMS troops have begun to fall back across the Were River. The Lyrans are expecting to push across the river in the next day or two, and they need to know all about the defenses at the Hashi bridge here at grid point Charlie. It turns out they don't have any assault 'mechs handy, so they want us to go ahead and do the reconnaissance for them. Of course, if we take the bridge, then they won't have to go through all the trouble. I doubt the Dracs would expect a group of lowly Mercs like us to try and take it from them.

So, saddle up, we move in five and will rendezvous in Sector 3 at map reference Charlie 4 and head to the bridge. Remember we need to gather information first and foremost, but the Lyrans have deep pockets and it sure would be nice to save them the trouble of storming the bridge and scratching up all those pretty Atlases.

**Map:** Exclude the top half of the top two maps. The whole map should be 1.5 maps tall by 2 maps wide.

There are 4 bunkers around the bridge, 2 on each side adjacent to the end of the bridge (Coast #1, hexes 1103, 1203 and 1304).

### Recommended Maps:

- 1: Archipelago 1
- 2: Coast 2
- 3: coast 1
- 4: 2018\_05 Front Rolling Hills 2

**Setup:** Foot Ballistic Rifle platoons are to be placed in the bunkers on the side of the bridge closest to the player's home edge. SRM platoons are placed in the bunkers on the side farthest from the player's home edge.

OpFor Mechs may deploy anywhere on the island or no closer than 2 full hexes up from the intersection of the 2 maps on the right.

The players "home side" is the bottom edge of the map. Players will enter on the first turn.

### Special Rules

**Hold Still, Will ya?:** To scan a unit or building, the player must make a "Scan Roll" during the weapons fire phase of the turn on a building or unit within line of sight.

- The TN is Pilot Skill + Scanner's Movement Modifier + Target's movement modifier.
- Buildings have a movement modifier of +0, but do not give the "Immobile Target" bonus.
- This roll is modified by range: 0-3 Hexes is +0, 4-6 Hexes is +2, 7-9 Hexes is +4.
- The Pilot may make a ranged attack that turn, but if it is made against a target other than the scanning target, one of the scan or the attack must be declared as a secondary target.

**Boy, they just don't make 'em like they used to:** The Bridge is a hardened structure with each bridge hex having a CF of 60. Regardless of CF, all 'Mechs and ground vehicles can safely cross the bridge until it has been reduced to half damage. At that point, any 'mech or non-hover vehicle crossing the bridge that weighs more than the remaining CF will cause it to collapse.

**Get out here, will ya?:** Bunkers are Heavy buildings with a CF of 60, building modifiers TW, p.167; damage to infantry in buildings TW. P.172 (25% damage if targeted directly while inside), Combat within Buildings TW, p. 175, building collapse, TW, p176-7

**Rules of Engagement:** (Secret, don't tell the PCs) Enemy OpFor defend the bridge at all cost, attempting to drive the players away or otherwise prevent them from capturing the bridge or reporting back on the defenses present. If 50% or more of the Infantry defending the bridge are eliminated, and/or 30% of the defending ground forces (in units, including infantry) are destroyed, the defending OpFor will begin to target both ends of the bridge for destruction. The OPFOR are not aware that the PCs are attempting to scan them, and will not take actions to prevent it (for example, no OPFOR 'mechs should simply hide in the water)

**Bushido:** All Veteran (4/3) and better Combine pilots have the Bushido PSA.

**Mission Objectives:** There are two ways the players can win the scenario:

**Scan the Bridge and its defenders:** The players must scan every bunker and all non-infantry forces. Any destroyed unit or building does not need to be scanned.

**Capture the Bridge:** To do this, the players must destroy three of the bunkers, and defeat the defending non-infantry units. If the infantry in a bunker are destroyed or forced out of the bunker, that bunker is considered destroyed. The defenders are considered defeated if the PCs have at least a three-to-one advantage at the end of the scenario. Enemy units are considered to be under **forced withdrawal** rules (TW pg. 258). Retreating or units that have lost a leg are counted as defeated for these purposes.

Award (C-Bills)	Mech Survived	Mech Severely Damaged	Mech Destroyed
PCs successfully scan all buildings and units	350,000	250,000	100,000
PCs capture the bridge	450,000	350,000	200,000
PCs fail to scan or capture the bridge, and it remains intact	150,000	100,000	50,000
Bridge is destroyed by Combine forces	250,000	150,000	100,000

Award (XP)	Pilot Survived	Pilot Killed
PCs successfully scan all buildings and units	15	5
PCs capture the bridge	15	5
PCs fail to scan or capture the bridge, and it remains intact	8	3
Bridge is destroyed by Combine forces	8	3
Opposing 'Mech/Combat Vehicle destroyed by party (each)	+1	+1

### Additional Rewards

**A Bridge to Where?** The PCs have captured a key bridge. Because of this, on any mission in which you start turn 1 entering the side of a map, you may instead cross off this reward to begin the first turn up to your walk speed in hexes away from the edge of the map. This movement must be legal - you cannot cross terrain you couldn't normally walk across or enter any hexes prohibited due to the scenario or any other movement restrictions. Cross off this reward if the PCs did not capture the bridge.

### GROUND COMBAT VEHICLE HIT LOCATION TABLE

2D6 Roll	ATTACK DIRECTION		
	FRONT	REAR	SIDES
2*	Front (critical)	Rear (critical)	Side (critical)
3	Front†	Rear†	Side†
4	Front†	Rear†	Side†
5	Right Side†	Left Side†	Front†
6	Front	Rear	Side
7	Front	Rear	Side
8	Front	Rear	Side (critical)*
9	Left Side†	Right Side†	Rear†
10	Turret	Turret	Turret
11	Turret	Turret	Turret
12*	Turret (critical)	Turret (critical)	Turret (critical)

\*A result of 2 or 12 (or an 8 if the attack strikes the side) may inflict a critical hit on the vehicle. For each result of 2 or 12 (or 8 for side attacks), apply damage normally to the armor in that section. The attacking player then automatically rolls once on the Ground Combat Vehicle Critical Hits Table below (see *Combat*, p. 192 in *Total Warfare* for more information). A result of 12 on the Ground Combat Vehicles Hit Location Table may inflict critical hit against the turret; if the vehicle has no turret, a 12 indicates the chance of a critical hit on the side corresponding to the attack direction.  
 †The vehicle may suffer motive system damage even if its armor remains intact. Apply damage normally to the armor in that section, but the attacking player also rolls once on the Motive System Damage Table at night (see *Combat*, p. 192 in *Total Warfare* for more information). Apply damage at the end of the phase in which the damage takes effect.  
 ‡Side hits strike the side as indicated by the attack direction. For example, if an attack hits the right side, all Side results strike the right side armor. If the vehicle has no turret, a turret hit strikes the armor on the side attacked.

### MOTIVE SYSTEM DAMAGE TABLE

2D6 Roll	EFFECT*
2-5	No effect.
6-7	Minor damage; +1 modifier to all Driving Skill Rolls
8-9	Moderate damage; -1 Cruising MP, +2 modifier to all Driving Skill Rolls
10-11	Heavy damage; only half Cruising MP (round fractions up), +3 modifier to all Driving Skill Rolls
12+	Major damage; no movement for the rest of the game. Vehicle is immobile.

Attack Direction Modifier:	Vehicle Type Modifiers:
Hit from rear	Tracked, Naval
Hit from the sides	Wheeled
	Hovercraft, Hydrofoil
	WiGE
	+0
	+2
	+3
	+4

\*All movement and Driving Skill Roll penalties are cumulative. However, each Driving Skill Roll modifier can only be applied once. For example, if a roll of 6-7 is made for a vehicle, inflicting a +1 modifier, that is the only time that particular +1 can be applied; a subsequent roll of 6-7 has no additional effect. This means the maximum Driving Skill Roll modifier that can be inflicted from the Motive System Damage Table is +6. If a unit's Cruising MP is reduced to 0, it cannot move for the rest of the game, but is not considered an immobile target. In addition, all motive system damage takes effect at the end of the phase in which the damage occurred. For example, if two units are attacking the same Combat Vehicle during the Weapon Attack Phase and the first unit inflicts motive system damage and rolls a 12, the -4 immobile target modifier would not apply for the second unit. However, the -4 modifier would take effect during the Physical Attack Phase. If a hover vehicle is rendered immobile while over a Depth 1 or deeper water hex, it sinks and is destroyed.

### GROUND COMBAT VEHICLE CRITICAL HITS TABLE

\*If Combat Vehicle has ICE engine only. If Combat Vehicle has a fusion engine, treat this result as Engine Hit.  
 \*\*If Combat Vehicle carries no ammunition, treat this result as Weapon Destroyed.

8-9	Moderate damage; -1 Cruising MP, +2 modifier to all Driving Skill Rolls
10-11	Heavy damage; only half Cruising MP (round fractions up), +3 modifier to all Driving Skill Rolls
12+	Major damage; no movement for the rest of the game. Vehicle is immobile.

Hit from the sides	Wheeled

	+4

\*All movement and Driving Skill Roll penalties are cumulative. However, each Driving Skill Roll modifier can only be applied once. For example, if a roll of 6-7 is made for a vehicle, inflicting a +1 modifier, that is the only time that particular +1 can be applied; a subsequent roll of 6-7 has no additional effect. This means the maximum Driving Skill Roll modifier that can be inflicted from the Motive System Damage Table is +6. If a unit's Cruising MP is reduced to 0, it cannot move for the rest of the game, but is not considered an immobile target. In addition, all motive system damage takes effect at the end of the phase in which the damage occurred. For example, if two units are attacking the same Combat Vehicle during the Weapon Attack Phase and the first unit inflicts motive system damage and rolls a 12, the -4 immobile target modifier would not apply for the second unit. However, the -4 modifier would take effect during the Physical Attack Phase. If a hover vehicle is rendered immobile while over a Depth 1 or deeper water hex, it sinks and is destroyed.

## GROUND COMBAT VEHICLE HIT LOCATION TABLE

\*A result of 2 or 12 (or an 8 if the attack strikes the side) may inflict a critical hit on the vehicle. For each result of 2 or 12 (or 8 for side attacks), apply damage normally to the armor in that section. The attacking player then automatically rolls once on the Ground Combat Vehicle Critical Hits Table below (see *Combat*, p. 192 in *Total Warfare* for more information). A result of 12 on the Ground Combat Vehicles Hit Location Table may inflict critical hit against the turret; if the vehicle has no turret, a 12 indicates the chance of a critical hit on the side corresponding to the attack direction.  
 †The vehicle may suffer motive system damage even if its armor remains intact. Apply damage normally to the armor in that section, but the attacking player also rolls once on the Motive System Damage Table at right (see *Combat*, p. 192 in *Total Warfare* for more information). Apply damage at the end of the phase in which the damage takes effect.  
 ‡Side hits strike the side as indicated by the attack direction. For example, if an attack hits the right side, all Side results strike the right side armor. If the vehicle has no turret, a turret hit strikes the armor on the side attacked.

**A Bridge to Where?** The PCs have captured a key bridge. Because of this, on any mission in which you start turn 1 entering the side of a map, you may instead cross off this reward to begin the first turn up to your walk speed in hexes away from the edge of the map. This movement must be legal - you cannot cross terrain you couldn't normally walk across or enter any hexes prohibited due to the scenario or any other movement restrictions. Cross off this reward if the PCs did not capture the bridge.

**Mission: 3028-02 Debrief**  
**A Bridge to Where?**

**September 10, 3028**

Once again you find yourselves at the field command vehicle, rather than your favorite mechwarrior bar for your debrief. Man, being at war is annoying, isn't it? You're hardly there for five minutes when the shelling starts. At first it is sporadic and far away, but as the debrief goes on it gets closer.

"Okay Boys, listen up! The Lyrans sure did appreciate us taking a looks-see around that bridge and bringing back information about the bridge's defenses. As the only bridge crossing in this sector capable of supporting assault level 'Mechs, the bridge was surprisingly lightly defended by the Kuritans and we now know why. It looks like the Snakes have fairly accurate pre-sighted artillery in the area, and they aren't exactly shy about using it. A short time ago, they managed to use it to great effect to effectively stop the Lyran advance cold. Apparently our LCAF liason has plans for us, so go make sure that Scotty has patched up and reloaded your 'mechs, get mounted up, and get ready to move out. I'll explain our new orders once we are on the move."

### Additional Rewards

**A Bridge to Where?** The PCs have captured a key bridge. Because of this, on any mission in which you start turn 1 entering the side of a map, you may instead cross off this reward to begin the first turn up to your walk speed in hexes away from the edge of the map. This movement must be legal - you cannot cross terrain you couldn't normally walk across or enter any hexes prohibited due to the scenario or any other movement restrictions. Cross off this reward if the PCs did not capture the bridge.

## MISSIONS

**Mission: 3028-02 Debrief**  
**A Bridge to Where?**  
**Hashi Bridge, Were River, Shaula**  
**September 10, 3028**

Once again you find yourselves at the field command vehicle, rather than your favorite mechwarrior bar for your debrief. Man, being at war is annoying, isn't it? You're hardly there for five minutes when the shelling starts. At first it is sporadic and far away, but as the debrief goes on it gets closer.

"Okay Boys, listen up! The Lyrans sure did appreciate us taking a looks-see around that bridge and bringing back information about the bridge's defenses. As the only bridge crossing in this sector capable of supporting assault level 'Mechs, the bridge was surprisingly lightly defended by the Kuritans and we now know why. It looks like the Snakes have fairly accurate pre-sighted artillery in the area, and they aren't exactly shy about using it. A short time ago, they managed to use it to great effect to effectively stop the Lyran advance cold. Apparently our LCAF liason has plans for us, so go make sure that Scotty has patched up and reloaded your 'mechs, get mounted up, and get ready to move out. I'll explain our new orders once we are on the move."
