Mission 3029-05b: Burn out the Invaders

Graves Hallow September 11, 3029 Pilot Skill: 2-4

Okay boys, listen up! It looks like the Feds are starting to circle the wagons in a place called "Graves Hollow" here at grid point Zulu just east of Backtal. It's a heavily forested valley, which makes attacks dangerous and prone to ambush. They sent probing attacks in on the east end of the valley, only to find an infantry regiment dug in like an Illiushin tick. Rather than fight them in the forest, the Cappies decided to burn them out, and they've sent us to do it. Honestly, it's a terrible idea if you ask me - forest fires tend to spread rather uncontrollably, but our Confederation bosses didn't ask me. Naturally, they need to prevent the infantry from breaking out in good order, so they've posted us here at grid point Whiskey to prevent that. Normally, a bunch of infantry fleeing a fire don't pose much of a threat to battlemechs, but in this case it looks like the Fed mercs have sent their own 'mechs.

So that's our new objective. Stop the Fed's 'mechs from getting past you to relieve their infantry. Fortunately for us, it has started raining, which means that the fires aren't spreading very quickly. That should make our jobs a bit easier as we only have to fight the 'mechs, not the fire as well. But stay frosty - that fire will cook a 'mech faster than a rookie Jenner pilot.

Map: Use the Holth ForestMap from the Tukayyid map pack (if available). Otherwise, any heavily forested map will do.

Recommended Maps:

1: Holth Forest

Setup: The players can set up anywhere on the left half of the map. The Enemy OPFOR will enter from the right side on turn 1.

Special Rules

Get a Bucket of Water!: Part of the map is on fire. Any hex marked with fire has 2 levels of light smoke above the fire. Battlemechs absorb 5 heat for ending a turn in a fire hex, plus 2 heat for every fire hex they *leave* using ground movement during the turn. Light smoke acts as light woods for the purposes of attack and line of sight calculations, but has no effect on movement. See Tactical Operations: Advanced Rules pg. 41 for fire rules.

Better then a Bucket: The map is under the Light Rainfall condition with no wind. The rain is preventing any of the fire from spreading so ignore any fire and smoke spreading rules. Units *can* start new fires if they so choose. See TO:AR pg 42 for details. Apply a +1 modifier to TNs to

set hexes on fire due to the light rainfall condition.

Secret reward: Flame on: If a player completed the secret objective in mission 3029-04 they can either replace one full ton of SRM ammo with Infernos, or bring along a Tracked Coolant truck with standard vehicle flamers. Only one player may choose to bring the Coolant truck, but it does not count against the one Battlefield Support limit.

Additional Rewards

Inferno SRMs:	(Optional Equipment) 🖵 🖵 🗖
I love the smell	of Napalm in the morning!

At the beginning of a scenario, you may declare one ton of SRM ammo to be loaded with inferno missiles (See TW: pg. 141 for details). If, at the end of the scenario, you have used more than one SRM salvo, have dumped the ammo, or the ammo bin containing the inferno missiles has been destroyed, check off one of the boxes above, or pay 27,000 C-Bills.

*A result of 2 or 12 (or an 8 if the attack strikes the side) may inflict a critical hit on the vehicle. For each result of 2 or 12 (or 8 for side attacks), apply damage normally to the armor in that section. The attacking player then automatically rolls once on the Ground Combat Vehicle Critical Hits Table below (see *Combat*, p. 192 in *Total Warfare* for more information). A result of 12 on the Ground Combat Vehicles Hit Location Table may inflict critical hit against the turret; if the vehicle has no turret, a 12 indicates the chance of a critical hit on the side corresponding to the attack direction. The vehicle may suffer motive system damage even if its armor remains intact. Apply damage normally to the armor in that section, but the attacking player also rolls once on the Motive System Damage Table at right [see *Combat*, p. 192 in *Total Warfare* for more information). Apply damage at the end of the phase in which the damage takes effect. Side hits strike the side as indicated by the attack direction. For example, if an attack hits the right side, all Side results strike the right side armor. If the vehicle has no turret, a turret hit strikes the armor on the side attacked.

*All movement and Driving Skill Roll penalties are cumulative. However, each Driving Skill Roll modifier can only be applied once. For example, if a roll of 6-7 is made for a vehicle, inflicting a +1 modifier, that is the only time that particular +1 can be applied; a subsequent roll of 6-7 has no additional effect. This means the maximum Driving Skill Roll modifier that can be inflicted from the Motive System Damage Table is +6. If a unit's Cruising MP is reduced to 0, it cannot move for the rest of the game, but is not considered an immobile target. In addition, all motive system damage takes effect at the end of the phase in which the damage occurred. For example, if two units are attacking the same Combat Vehicle during the Wespon Attack Phase and the first unit inflicts motive system damage and rolls a 12, the -4 immobile target modifier would not apply for the second unit. However, the -4 modifier would take effect during the Physical Attack Phase. If a hover vehicle is rendered immobile while over a Depth 1 or deeper water hex, it sinks and is destroyed.
